

2024 11th International Conference on Power and Energy Systems Engineering

Conference Venue: Nara Kasugano International Forum IRAKA

“Smart and Flexible Power and Energy Systems”

Dear Colleagues and Friends,

It is our great pleasure to announce that the 11th International Conference on Power and Energy Systems Engineering (CPESE 2024) will be held on September 6-8, 2024, in Nara, Japan. We are delighted to welcome you to the attractive city of Nara, famous city for deer and natural beauty.

The CPESE 2024 will provide a suitable environment and opportunity to discuss new research/engineering achievements on more flexible, robust, sophisticated, and predictive solutions to enhance the power and energy grids' reliability and resilience. Accordingly, this time we have chosen the theme of the conference as “Smart and Flexible Power and Energy Systems”.

With the successful experience of the previous 10 years, we hope that this conference will be more productive and satisfying.

On behalf of the organizing committee, it is a great honor to invite you to attend the CPESE 2024 in Japan.

Looking forward to seeing you in the wonderful and beautiful city of Nara, which is one of the most attractive Japanese towns.
